

Acrovyn® Woodgrains

From left: Cool Gray Ribbonwood, Snowed New Oak, Weathered Willow Oak, Shadow Papyrus

Discover a new, modern update to our Acrovyn® Woodgrains Collection. Explore an updated palette of authentic wood designs in a range of wood tones that is more realistic than ever before. Some of our New Acrovyn Woodgrains can even be enhanced with a complementary texture and embossed to create the most authentic wood appearance in wall protection.

In addition to our most loved traditional colors, this carefully curated palette includes new tones featuring warmer, natural shades as well as an assortment of warm and cool grays. Combined with a new subtle, shallow microtexture, and you'll fool even the most discerning eye.

Supplied in up to 4' x 10' sheets in .040" and .060" thickness or can be specified on additional Acrovyn products including wall panel systems, wall protection, and Acrovyn Doors. The new Acrovyn Woodgrains are designed to beautifully coordinate with all CS interior product solutions.

See last page of color card for product availability. For more information, visit <https://www.c-sgroup.com/acrovyn-wall-coverings-and-panels>.
